

Introducing... **TURNY**™ Orbit

Powered
all the way

**ORDER
TODAY!**

The Turny™ Orbit Seat is designed for a wide range of vehicles including: minivans, SUVs, pickup trucks, full-size vans and some of today's crossover vehicles.

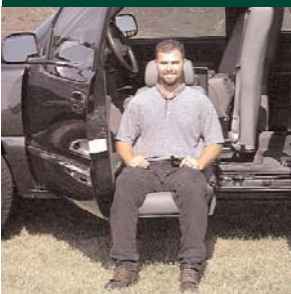

A Bruno TAS™ (Turning Automotive Seating™) Mobility Product

Turny Orbit works well with selected child seats

Turny Orbit w/ LP Seat and **NEW** Child Latch meets FMVSS 225. Available early 2005. Shown with Britax model car seat.

Turny Orbit works great in pickup trucks

Shown in a driver-side application with Bruno Exo Frame™.

Turny Orbit Seat with **NEW** Carony 12 Fixed Transport Chair

For caregivers, it's the ideal, total mobility system for convenient, safe transportation!

Just one of the ways Bruno is working to provide accessible transportation for today's – and tomorrow's – vehicle users!

- ◆ Travel with ease using Bruno's Turny Orbit Seat – the only fully-powered, rotating-and-lowering mobility seat.
- ◆ Just like our proven Bruno Turny V (HD) Seat, the Turny Orbit provides safe, easy access to the first-row passenger and second-row passenger seating, but with the convenience of fully-powered operation.
- ◆ Convenient, hand-held operation automatically turns the Turny Orbit Seat from any position. With just the touch of a button, the Turny Orbit Seat rotates and moves outside and down to the most comfortable position for stepping in/out of the vehicle or transferring at the desired height.
- ◆ The Turny Orbit can be quickly installed in a couple of hours. Plus, it's easy to remove, restoring your vehicle to its original condition without compromising resale value. The Turny Orbit is also crash tested and certified to meet FMVSS standards.

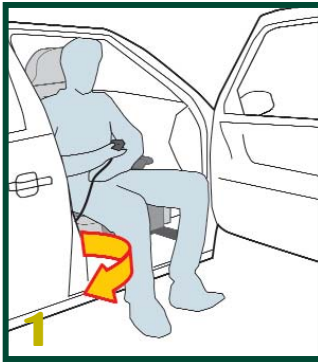

Industry First!

ONLY the Turny Orbit offers a minivan driver-side solution. Combined with a Bruno VSL-900 (Scooter Lift II Model) Vehicle Lift, this solution gives you total independence without any structural modifications.

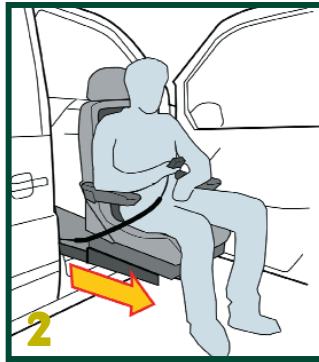

This package is only available for the 2004/2005 Toyota Sienna minivan.

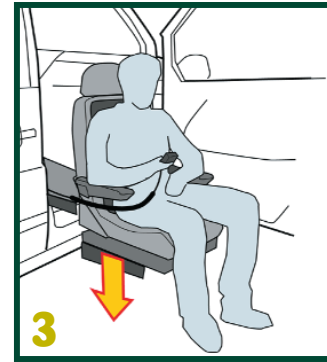

www.turny.com

Using the pendant, the Turny Orbit Seat rotates out automatically...

smoothly glides out of the vehicle...

...and then lowers to the desired level.
